

Summer Programs

Updated April 15, 2024

Educational Opportunity For Westview High School Students — Johns Hopkins University Global Health Leaders Conference

Our international conference is a Johns Hopkins University student and faculty-led program open to students in grades 9-12. Through our conference, students from around the world learn about issues in global health, public health, and medicine through world-class lectures from leaders in these fields, develop connections with like-minded exceptional students, and share their own work and ideas on global health-related topics at the international scale. Featured speakers at our conference have included leading global health researchers, renowned professors, physicians, policy developers, and Nobel Prize winners. In short, the purpose of our program is to reach passionate students of all backgrounds from around the world and develop the next generation of leaders in global health, public health, and medicine.

Virtual conference programming will be held throughout the summer of 2024. The conference consists of a series of multiple virtual events on multiple days throughout June-August 2024. If an admitted student cannot attend parts of the programming synchronously, there will be asynchronous options for students to watch the content they miss. The conference registration fee for admitted students is 99 USD; if the fee places a significant financial burden on a student's family, financial assistance is available as we do not want the fee to be a barrier for any deserving student. There are also no application fees.

The conference application is available on our website (<https://glohea.org>) and will be accepted until March 1st, 2024. Each year, admission into our program is competitive, so we highly encourage your students to apply at their earliest convenience.

Please do not hesitate to email our team at admissions@glohea.org or visit our website if you would like any clarification or have any questions. We hope your interested students will take advantage of this opportunity, and our admissions committee looks forward to reviewing their applications!

Lehigh Summer Program for High School Students!

We are excited to share that we are accepting applications from current high school sophomores and juniors for our [Iacocca Global Entrepreneurship Intensive \(IGEI\)](#)! This program will be hosted on Lehigh's campus from **June 23 – July 20, 2024** in Bethlehem, Pennsylvania.

During this immersive experience, participants engage in dynamic learning opportunities, workshops and design labs, visits to companies and start-ups and a team-based business consulting project with a real client company. Through experiential learning, we challenge participants to become innovative, interactive and culturally adept doers, ready to meet the challenges of the 21st century and beyond in creative and collaborative ways.

For more information and to apply, visit the [Iacocca Global Entrepreneurship Intensive website](#), or join us for an upcoming information session:

- December 5, 2023 at 7 p.m. EST
- December 13, 2023 at 12:00 p.m. EST
- December 14, 2023 at 7 p.m. EST
- January 10, 2024 at 12:00 p.m. EST
- January 11, 2024 at 7 p.m. EST

All applicants who choose the January 15 deadline will receive the 10% early bird pricing discount; applicants in that cycle will also have the option to apply for need-based financial assistance.

The early decision deadline for this program is February 12, 2024. Your students can **reach out to gesummer@lehigh.edu to sign up for an information session, to ask questions or to learn more!**

Brown Pre-collage Summer Programs

Brown Pre-College Programs are designed for high school students to explore the challenges and opportunities of the college experience. You'll enjoy the excitement and responsibility that comes from balancing challenging academics and enriching social activities—without the pressure of formal grades.

In one of our 1- to 6-week courses, you'll get to know the best of Brown: We're an Ivy known for our embrace of independent thinkers — one that values and respects student voices. [Pre-College Program | Brown University](#)

Stanford Summer Humanities Institute: Application Deadline is February 1

There is still time for students to apply for the 2024 Stanford Summer Humanities Institute! **The application deadline is February 1, 2024 at 11:59 pm Pacific Time.**

Stanford Summer Humanities Institute is a three-week residential program where rising high school juniors and seniors can explore the big questions at the heart of the humanities in seminars led by Stanford professors and graduate student teaching assistants. Participants tap into Stanford University's excellence in the humanities and social sciences—exploring texts and ideas, writing college-level papers, and communicating complex arguments in discussion sections and writing assignments.

Please feel free to share the website below with your students to help them explore our program. You can also share this [digital flyer](#) with your students.

Syracuse University Pre-College!

For 64 years, Syracuse University has been providing rising high school sophomores, juniors and seniors with the opportunity to explore potential majors and careers in its renowned pre-college programs.

In Summer College, high school students can choose from over 100 college-level courses offered on campus, online or in a hybrid format. As a Summer College student, they will:

- Build your resume or portfolio
- Enhance your college applications so they stand out to college admissions
- Test out a major before committing to your undergrad degree
- Earn a Certificate of Completion and a Syracuse University credit or noncredit transcript

The scholarship deadline is March 1, 2024, and the final application deadline is May 1, 2024. Applications are accepted on a rolling basis and courses fill quickly, so please encourage your students to [apply soon!](#)

Feel free to reach out if you have any questions by phone 315.443.5000 or [email](#). We're happy to connect with you or your students to guide them along their pre-college journeys!

Columbia University's Pre-College Programs

Students who are currently in grades 8-12 may apply for our summer Academic Enrichment Programs to try their hand at over 70 subjects normally reserved for college. For example: Constitutional Law, Investment Portfolio Management, Data Science and Machine Learning, and Introduction to Architectural Design and Theory, to name a few.

We offer online courses and we have two in-person program options in NYC: one for students commuting to campus daily and a residential program with an age requirement of 16 years or older in which students live in on-campus housing. All students may choose from several extracurricular options and workshops while residential students live in our dorms and experience the vibrancy of New York with its numerous museums, neighborhoods, and other entertainment options.

Here is a link to our most recent [flyer](#) which will give you all the relevant information about our summer program. For more detailed information, please visit our [webpage](#).

The early registration deadline is **February 1**. Students register for classes after committing to attend the program and admission is rolling; so we strongly recommend students submit an application by February 1 for the best chance of enrolling in their first choice course.

We will also be hosting special information sessions featuring past participants of the program.

What is the Clarkson University Horizons Summer Program?

The Clarkson University Horizons program's mission is to drive genuine and inclusive culture change for middle and high school students from all backgrounds. Our aim is to provide tools to help our participants excel in STEAM (Science, Technology, Engineering, the Arts and Mathematics) and attend college well prepared to pursue employment or advanced degrees and eventually assume leadership roles in STEAM.

Through fun and challenging hands-on projects, the Horizons curriculum uses an integrated instructional module in mathematics, science and engineering that is supported by the arts and technology. We believe in a holistic approach to education. Additionally, it is important to foster growth and balance in the life of a participant in every course. Thus, the life skills component further enhances instruction as participants build confidence, personal insight, leadership skills and team spirit in an emotionally supported learning environment.

At Horizons, participants are taught by a diverse staff of educators. Our young guests are mentored by program assistants who are undergraduate or graduate college students who excel in STEAM disciplines. Group sizes are small so that each participant has the opportunity to form a lasting relationship with staff and peers.

2024 Dates

Horizons I, II and III will take place Sunday, July 7th - Friday, July 12th

Fulton Summer Academy 2024

Would you like to provide your rising 11th and 12th graders the opportunity to experience what it's like to be an engineer? The Arizona State University (ASU) [Ira A. Fulton Schools of Engineering](#) creates engineers and inspires innovation. **We offer summer camps through our [Fulton Summer Academy 2024](#) to rising high school juniors and seniors (for Fall 2024) that enable them to experience what it's like to be an engineer and study engineering at ASU.**

During each camp, students will explore undergraduate engineering and technology programs offered at the Fulton Schools and gain a deeper understanding of the engineering profession and career opportunities by meeting faculty and current students. It's an ideal way for them to see how they can take on some of the greatest challenges facing our society and make a world of difference. **Would you be able to share this information with your rising 11th and 12th graders who might be interested in engineering and technology? I've also attached a flier that can be sent to students.**

Explore Exciting Opportunities for Aspiring Artists & Designers with Pratt PreCollege!

Do you know students who are on their path to becoming artists, designers, or architects? With options ranging from one-day workshops, 1-credit Saturday classes during the school year, to a 4-week, 4-credit immersive in-person summer program, Pratt PreCollege aims to meet students where they are in their creative and academic journey.

Learn more about our upcoming programs:

Late Spring 2024–Deadline to Register: April 19, 2024

[Portfolio Development Workshop \(Online\)](#)

Learn from the expert! Join Mike Barry, Associate Director of Admissions and artist, in an engaging, 3-hour workshop covering the ins and outs of what makes a compelling portfolio, what a complete application consists of, and the importance of a portfolio for students considering a career and education in art and design. This unique portfolio workshop aims to give students the tools to look critically at their work, set challenges, and develop meaningful practice as they cultivate their unique creative voice. Engage in a culminating live Q&A session for personalized advice and receive the tools to kickstart preparation for college admission.

SUMMER 2024 PRECOLLEGE PROGRAM:

June 2024: Deadlines to Register: Credit: May 1, 2024; NonCredit: May 7, 2024

[PreCollege ELL Portfolio \(Online\)](#)

Do you know students looking to improve their English language skills with an interest in art, design, and architecture? These 30-hour online, noncredit classes for English Language Learners (ELL) run June 3 - July 3, 2024 from 8:00PM - 11:00PM EST. Classes are available in both Written Communication and Oral Communication - students are encouraged to enroll in both classes for a further immersive experience.

[Online Summer Courses](#)

Join us online from June 3 - July 3, 2024 in 1-credit and NonCredit classes. Credit-bearing classes are modeled after Pratt's undergraduate curriculum and focus on specific areas of study across the Institute's offerings such as Architecture, Graphic Design, and Painting and Drawing.

July 2024: Deadline to Register: May 1, 2024

[In-Person Summer PreCollege Program](#)

Enroll in two, 2-credit classes from a list of 19 different concentrations! This immersive, 4-week program takes place on Pratt's beautiful Brooklyn campus. Residential students live in Pratt residential halls and participate in extracurricular activities such as museum visits and artist lectures.

Have questions about any of the programs? Meet our team on zoom to learn more about upcoming programs with Pratt PreCollege in a virtual Info Session and Q+A on [Thursday, February 29, 2024 at 6:00PM EST.](#)

Questions about ELL Portfolio? We're hosting a focused Info Session and Q+A at 6:00PM ET on Wednesday, March 13, 2024 on Zoom. [Register here with Eventbrite.](#)

Questions in the meantime? Email our team at precollege@pratt.edu .

ASU Engineering: Free residential Transportation Engineering program

We are receiving applications from Arizona High School students who are currently be in the 10th or 11th grade for our 2024 National Summer Transportation Institute – a free residential program at Arizona State University’s Tempe Campus. The program will offer a range of experiences including field trips to transportation engineering sites, building and programming an autonomous vehicle, exploring the diverse transportation challenges we face nationally and globally, and experience ASU campus life.

Program dates are, June 9-14, 2024. Please note that the application deadline is April 15, 2024.

Please encourage students who want to explore careers in the transportation engineering areas (civil engineering, construction management, mechanical engineering, aerospace engineering, software engineering, aviation, etc.,) to apply.

Apply here: <https://links.asu.edu/nsti2024>

Weeklong summer immersion programs at UNC Asheville offer students a deep dive into academic topics and hands-on experience.

UNC Asheville’s Pre-College Programs introduce high school students to college-level study, university life, and career options in a dynamic learning environment. Each one-week program offers deep immersion into an academic topic, challenging activities, and the opportunity to engage with industry professionals.

For more information, visit unca.edu/precollege. If you have any questions, feel free to reach out to us at precollege@unca.edu or [828.251.6960](tel:828.251.6960).

Free ASU Residential Summer Camp for 10th & 11th Graders

ASU is offering the 2024 National Summer Transportation Institute at their Tempe campus. The program is FREE and offered for current 10th and 11th grade students. Please see the attached flyer. Here is the [application link](#). I also tried to send a mass email through Synergy to 10th and 11th graders, but I am not sure if it went through. **The application deadline is April 15th.**

APACE Academy

Engage in activities for professional development, gain cultural knowledge, and find your voice!

APACE (Asian Pacific Advocacy, Culture and Education) Academy is a 5-day summer program at ASU with a focus on Asian Pacific American history, culture, contemporary topics, cultural competency, public-speaking, and civic engagement.

APACE Academy students engage in activities which help them find connections between their cultural identity, history, and their own professional development. APACE is a space for high school students to make new connections with similarly aged peers, professionals, ASU faculty and students, and community organizations and mentors.

This year, APACE Academy is open to 30 students from Asian and Pacific Islander communities entering grades 9-12 in fall 2024. The program will be held on ASU's Tempe campus from Monday through Friday, June 3 – June 7, 2024.

Daily activities begin at 8:30 am and end at 4:00 pm. The schedule includes:

- Team-building activities
- Culture Show and Tell
- Classes on history, culture, and contemporary issues
- Storytelling workshop
- Mock Trial
- Career exploration
- Closing Celebration for students and families
- and more!

Note: A lunch hour is scheduled each day. Students should bring their own lunch or will be provided with an M&G card to be used at campus restaurants at the [Memorial Union](#).

Registration fee: Registration fee helps cover t-shirts, materials, snacks, lunches, etc. However, we plan on offering our program each summer with no cost to our students and their family. This is possible thanks to donations made by our community organizations and corporate sponsors. If interested in financially contributing to the ongoing success of our academy, please see below for details.

Registration application: To be accepted into the APACE Academy, complete and submit the [online application form here](#).

Application Due Date: May 3, 2024
